

# **NDMA School Disaster Guidelines**

## **NDMA Guidelines for Disaster Preparedness in Schools**

1. Conduct regular earthquake, fire, and flood drills at least twice a year.
2. Establish designated evacuation routes and assembly points.
3. Train teachers and staff in basic first aid and emergency response.
4. Maintain updated contact directories for parents and local emergency services.
5. Retrofit old school buildings to meet disaster safety standards.
6. Integrate disaster education modules into the curriculum.
