

UNDRR DRR in Education

UNDRR Recommendations for Disaster Risk Reduction in Education

1. Integrate disaster risk reduction (DRR) into national education policies.
2. Use interactive tools and digital simulations to prepare students.
3. Ensure inclusivity: training must include children with disabilities.
4. Encourage collaboration between schools, parents, and local communities.
5. Develop region-specific disaster modules (cyclones, floods, earthquakes).
6. Promote gamified learning for better engagement.
